

CALL FOR CHAPTERS

EDITED BOOK on “Advances in Mathematical and Computational Modeling of Engineering Systems”

Main themes

- Models of control of infectious disease
- Mathematical models of interacting populations
- Mathematical models of environmental problems
- Climate change modelling
- Spatio-temporal modelling of biological systems
- Multicomponent compressible flows
- Computational fluid dynamics of Nanofluids
- Nonlinear evolution of waves
- Simulations in thermodynamics
- Computing and simulation of epidemic modelling
- fluid flows in various geometries
- bio-mechanics and biological modeling

Submission procedure

- ✓ Email your chapter to mukeshiitr.kumar@gmail.com, maitri.verma9@gmail.com
- ✓ Submitted chapters will be reviewed on a double-blind review basis.
- ✓ The accepted papers will be assigned the chapter numbers in the book and the authors will be requested to submit the revised final paper as per the format of the book.

Editors:

Dr. Mukesh KumarAwasthi
Dr. Maitri Verma
Dr. Mangey Ram
